

PARIS (PAR2)

LOCATION

Bâtiment E501, 20-22 rue des Gardinoux, 93300 Aubervilliers

An ideal home for your applications infrastructure

Interxion's PAR2 cloud and carrier-neutral data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions.

Located 10 km north of the Paris city centre, this facility offers 2N UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems. PAR2 supports the latest high-density power configurations and has been designed using Interxion's energy-efficient modular architecture, with free chilling and maximum efficiency components as standard.

At a glance

- 2,982 m² of maximum equipable space
- Security staff on site 24x7, 365
- 6 MW/15 kV redundant grid connection
- Access to 80+ connectivity providers
- Advanced fire detection and suppression systems
- ASHRAE-standard temperature and humidity SLAs

Facility

- 2,982 m² of maximum equipable space
- Located 10 km north of Paris city centre and 16 km away from Charles-de-Gaulle airport
- Four minutes' walk from Metro line 12 "Front Populaire"
- 2N redundant design architecture allowing maintenance operations with no service interruption

Interconnection

- Dual-entry fibre into the building
- Access to more than 80 connectivity providers
- Direct access to the PARIX, SFINX and France-IX Internet exchanges
- Connection to Interxion France dark fibre network
- Access to IP single homing or multi-homing on demand

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 50 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission-critical applications. With over 700 connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.

For more information, please visit www.interxion.fr

Power

- 6 MW/15 kV redundant grid supply
- Up to 99.999% availability SLA
- 2N UPS redundancy
- N+1 backup generators, supporting 72 hours autonomy at full capacity
- Full range of AC and DC output currents

Security

- Security staff on site with controlled access 24x7, 365
- Multiple physical security layers including CCTV, proximity cards and man traps
- ISO 27001/IEC-certified information security management systems

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA)
- Inert gas fire suppression system
- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per customer room
- Entire facility infrastructure monitored 24x7, 365 in real-time (Chillers, CRAC units, Fire Panels, Generators, UPS in 2N configuration)

Services

- Cabinets, cages and private rooms
- Remote Hands & Eyes: 24x7, 365
- Full range of interconnectivity services
- Cloud Connect: enables private connections to multiple cloud providers
- Extendable to over 50 data centres across Europe via a single service contract

Energy Efficiency

- Guarantee of Origin certificates: 100% of power consumption produced from renewable resources
- Phased modular architecture optimises Power Usage Effectiveness (PUE)
- Operated beyond the industry standards for energy efficiency
- Installation of cabinets in cold or hot aisle containment

Customer Support

- ISO 22301 Certification - standard for Business Continuity Management.
- ISO/IEC 27001 - accredited European Customer Service Centre (ECSC) providing support in 11 countries according to the same rigorous standards
- 24x7, 365 facility and service monitoring in real-time
- Multilingual response (French, English, Spanish, German and Dutch)

Local accreditations

- ISO 14001:2004 certification of our environmental management system for all our data centres in France and our Paris headquarters
- OHSAS 18001 certification dedicated to health and safety at work, obtained for our operations in France
- PCI-DSS certification related to data security for customers for all our data centres in France
- Personal health data housing for all our data centres in France
