

Washington, D.C. IBX+ Data Center

EQUINIX WASHINGTON, D.C. DATA CENTERS

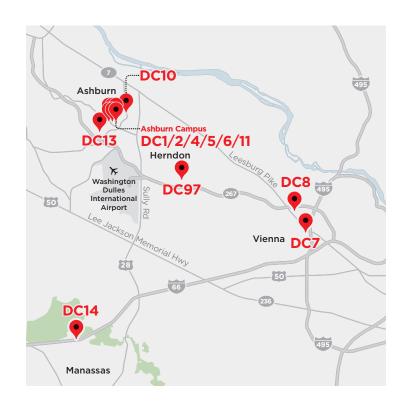

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers. Our Washington, D.C. data centers are business hubs for 950+ companies. Our D.C. customers can choose from a broad range of network services from 175+ providers. They can also interconnect directly to customers and partners in their digital supply chain.

Our D.C. data centers, located in Ashburn, Virginia; Manassas, Virginia and Vienna, Virginia, are strategic communications hubs for the eastern United States. They're also a major communications gateway to Europe and the largest peering point in North America.

WASHINGTON, D.C. IBX® BENEFITS

- · Compliance with key federal regulations and industry standards
- Proximity to high concentrations of IT, telecommunications, biotechnology, federal government and international organizations in the D.C. area. Proven record for growth in colocation, network density and interconnectivity with room for expansion
- Retail and wholesale colocation options provide customers with flexibility in colocation options and cost
- Access to one of the top three peering and exchange markets, including the largest peering exchange on the U.S. East Coast
- Provides connections to key metro areas such as Chicago, New York and London
- · Home to one of three GRX peering locations in the world
- Ashburn campus provides connectivity to AWS Direct Connect and Microsoft Azure through the Equinix Cloud Exchange™

IBX+ TECHNICAL SPECIFICATIONS

Building

Space

-	
Colocation Space	19,935 ft² (1,852 m²)
Building Type	1-story, tilt-up concrete, steel, concrete slab on grade
Parking	Adjacent to building (no charge)
Floor	
Floor Type	Slab
Floor Load Capacity	250 psf (11.97 kN/m²)
Seismic Design Category	1
Fire Suppression	Double-interlocked, pre-action

(dry pipe)

Power and Cooling

Power and Cooling Density	2.4 - 3.0 kVA per cabinet
UPS Configuration	2N
UPS Redundancy	2N
Standby Power Configuration	3 x 800 kW and 1 x 750 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Air-cooled chillers and CRAC units
Cooling Redundancy	N+1
Security	
Physical	Man trap entry
Human	24x7 security officers
Electronic	Biometric Readers, Fiber Vault, CCTV and Recorders, Motion Detection

Amenities

- · Break Room
- Loaner Tools
- · Showers
- · Crash Carts
- Work Kiosks
- Wifi
- · Conference Room

Products and Services

Colocation

- · Private Cage
- · Secure Cabinet
- AC Power Circuits
- DC Power Circuits
- IBXflex™ Office and Storage
- Antenna

Interconnection

- Cloud Exchange™
- · Internet Exchange
- · Cross Connects
- · Equinix Management Access
- · Campus Cross Connect

Services

- Smart Hands™
- Migration Planning
- · Equipment Sourcing
- Installation
- · Professional Services

Packaged Solutions

- Performance Hub™
- Data Hub™

Reliability

Our IBX data centers boast an industry-leading, high average uptime track record of >99.9999% globally.

Certification and Sustainability

Certifications

- SSAE 16/ISAE 3402 SOC 1 Type $\rm II$
- SOC 2 Type II
- · ISO 27001

Green By Design

- · Granular temperature controls
- · Reflective roof
- · LEDs and Optimized lighting controls
- · Renewable energy wind
