

# Perth IBX Data Center

East Perth WA, Australia

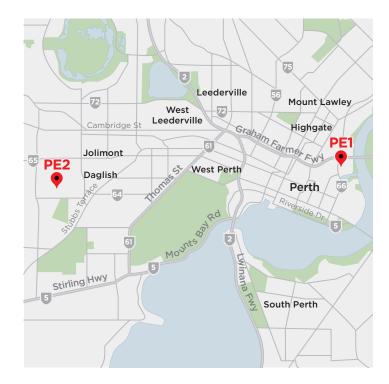

#### **EQUINIX PERTH DATA CENTERS**

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Perth International Business Exchange™ (IBX®) data centers are carrier-neutral facilities with multiple network options. Our facilities provide direct access to the new Australia Singapore Cable, which connects Perth and Singapore via Indonesia, making Equinix Perth the ideal location for customers looking for low latency connection in Western Australia and into Asia

Equinix Australia IBX data centers are located across six major cities, including Sydney, Melbourne, Perth, Canberra, Brisbane and Adelaide, which service many of the world's largest companies, including financial service providers, cloud providers and network service providers. Our colocation and interconnection platform spans 200+ data centers, enabling unmatched control and access to markets that drive digital business worldwide.

## PERTH IBX® BENEFITS

- Destination of the new Australia Singapore Cable with multiple carrier connectivity
- Access to multiple network providers and important ecosystem partners
- Network-neutral, highly scalable, secure colocation environment
- Capital of Western Australia and a major base for mining and oil and gas industries
- Australia's gateway to Asia and an important air travel and logistics hub
