EQUINIX FRANKFURT DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Frankfurt data centers are business hubs for 895+ companies. Frankfurt customers can choose from a broad range of network services from 300+ providers, and they can interconnect directly to customers and partners in their digital supply chain. The Equinix Frankfurt metro International Business Exchange™ (IBX®) data centers consist of six buildings with approximately 563,000 square feet (52,375+ square meters) of colocation space.

The Equinix Frankfurt colocation facilities enable customers to be part of a rich industry ecosystem and feature a dense concentration of telecommunications, financial services and manufacturing companies. Our data centers are among the world's most carrier-dense, thanks in part to our partnership with DE-CIX Frankfurt, the largest internet exchange point in the world. Additionally, Equinix also offers access to our very own internet exchange (IX), as well as access to the services of several other IX providers.

FRANKFURT IBX® BENEFITS

- Central location and Germany's strong data privacy laws optimize European data center operations deployment.
- Multiple interconnected Tier 3+ sites offer business continuity and disaster recovery operations.
- Aggregation point for networks serving five continents, with one of Europe's highest network densities.
- Large concentration of electronic trading and capital markets in the eFX ecosystem.
- European gateway to global trading opportunities with 140+ financial services firms and 20+ trading venues participating in the local financial ecosystem.
- Provides secure, resilient and compliant colocation.

Building

Space

Colocation Space	18,546 ft ² (1,723 m ²)

Parking	Adjacent to building (for fee)

Floor

Floor Type	Raised
Floor Load Capacity	104 psf (4.98 kN/m ²)

Fire Suppression

Double-interlocked, pre-action dry pipe (VESDA), optical fire detectors

Facilities

Power and Cooling

Power and Cooling Density	1.0 - 3.0 kVA per cabinet
Utility Feeders	2
UPS Configuration	Distributed redundant
UPS Redundancy	N+1
Standby Power Configuration	4 x 450 kVA diesel generators (1,800 kVA)
Standby Power Redundancy	N
Cooling Configuration	Centrifugal chillers
Cooling Redundancy	N+1

Security

Physical	Man trap entry, exterior fencing, vehicular barrier, car trap
Human	24/7 onsite security officers
Electronic	Card readers, biometric readers in common areas; additional biometric readers optional for customer cages, CCTV surveillance with 90-day video retention, motion detection

Amenities

- Break room
- Loaner tools
- Showers
- Crash carts
- Work kiosks
- Wifi
- Conference room

Products and Services

Colocation

- Private cage
- Secure cabinet
- AC power circuits
- DC power circuits
- IBXflex™ office and storage
- Antenna

Interconnection

- Equinix Cloud Exchange Fabric™
- Metro Connect™
- Cross connects

Services

- Smart Hands™

Reliability

Our IBX data centers boast an industry-leading, high average uptime track record of >99.9999% globally.

Certification and Sustainability

Certifications

- ISO 27001
- ISO 9001:2015
- PCI DSS

Green By Design

- Renewable energy—100% bundled in-country GoOs from hydro
