

EQUINIX HONG KONG DATA CENTERS

Equinix Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Hong Kong data centers are part of Equinix's global platform, Platform Equinix®, that provides a unique value proposition of availability, performance, proximity and connectivity.

Our five Hong Kong International Business Exchange $^{\text{TM}}$ (IBX®) data centers provide 26,800+ square meters (288,000+ square feet) of colocation space, strategically located across the city to enable customers the proximity to financial district and key carrier nodes. Our facilities are business hubs for 505+ companies, with participation from key international finance, trade, network, cloud and services. Customers can choose to interconnect directly to 140+ financial service provider, 80+ network service providers and 125+ cloud and IT service providers.

HONG KONG IBX® BENEFITS

- Leading regional Internet Exchange and one of the most carrier-dense network hubs in Hong Kong
- Financial hub of Asia with a strong financial ecosystem (140+ participants including banks, exchanges and multiple market data vendors)
- Metro Connect provides a city-wide campus that allows each new facility to reap the benefits of existing ones
- Offers Business Continuity Trading Room (BCTR) service supporting recovery requirements for financial firms' frontand back-office personnel
