EQUINIX FRANKFURT DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Frankfurt data centers are business hubs for 800+ companies. Frankfurt customers can choose from a broad range of network services from 300+ providers, and they can interconnect directly to customers and partners in their digital supply chain. The Equinix Frankfurt metro International Business Exchange™ (IBX®) data centers consist of seven buildings with approximately 530,000 square feet (49,000+ square meters) of colocation space.

The Equinix Frankfurt colocation facilities enable customers to be part of a rich industry ecosystem and feature a dense concentration of telecommunications, financial services and manufacturing companies. Our data centers are among the world's most carrier-dense, thanks in part to our partnership with DE-CIX Frankfurt, the largest Internet Exchange point in the world. Our facilities also provide access to the KleyReX and DataIX Internet Exchanges.

FRANKFURT IBX® BENEFITS

- Central location and Germany's strong data privacy laws optimize European data center operations deployment
- Multiple interconnected Tier 3+ sites offer business continuity and disaster recovery operations
- Aggregation point for networks serving five continents, with one of Europe's highest network densities
- Large concentration of electronic trading and capital markets in the eFX ecosystem
- European gateway to global trading opportunities with 140+ financial services firms and 20+ trading venues participating in the local financial ecosystem
- Provides secure, resilient and compliant colocation
