

EQUINIX PARIS DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Paris data centers are business hubs for 560+ companies. Paris customers can choose from a broad range of network services from 95+ providers and can also interconnect directly to customers and partners in their digital supply chain. Our facilities feature a dense concentration of banking, commerce, transport and telecommunications companies. The Equinix Paris metro International Business ExchangeTM (IBX®) data centers consist of 7 buildings with approximately 417,000 square feet (38,800+ square meters) of colocation space.

The Paris colocation facilities enable customers to be part of a rich industry ecosystem. Our strategic location in Paris gives our data centers a high level of carrier connectivity, making them ideal locations to procure bandwidth and optimize network performance. This metro region is also a termination point for many undersea cable systems in the Mediterranean, bringing providers to Europe from Africa, the Middle East and Asia-Pacific.

PARIS IBX® BENEFITS

- · Peering access to more than 350 networks
- PA2, PA3, PA4, PA5 and PA6 operate as a campus environment, providing simple and cost-effective connectivity options between buildings
- Access to markets in the Middle East and Africa via subsea cable landings at Marseille.
- Access to Microsoft Azure, Amazon Web Services, SoftLayer*
- · Compliant with key international standards
