

#### **EQUINIX ATLANTA DATA CENTERS**

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers. Our Atlanta data centers are business hubs for 150+ companies. Our customers here can choose from a broad range of network services from 40+ providers. They can also interconnect directly to customers and partners in their digital supply chain. Equinix metro Atlanta International Business Exchange™ (IBX®) data centers consist of two buildings with approximately 165,000 square feet (15,000+ square meters) of colocation space.

Atlanta is a major hub for industry, telecommunications and infrastructure. It's also one of the world's top 10 financial centers and home to the Atlanta Stock Exchange, Atlanta Board Options Exchange and Atlanta Mercantile Exchange. Our data centers are strategically located in a dedicated carrier hotel and interconnection facility, and are integral to bringing internet exchange and networking services to the Southeast.

#### ATLANTA IBX® BENEFITS

- Colocation services in a metropolitan region with the fourthlargest concentration of Fortune 500 companies in the U.S. and with 75 percent of Fortune 1000 companies
- Dense concentrations of financial services, IT services, content and telecommunications companies
- Vital communications hub with low-latency network routes to Washington, D.C., Miami and Dallas
- · Strategic location in the heart of the South's financial center
- · Geographic location well-suited for a core or aggregation node
- · Home to the financial and enterprise hub of the South
